**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

You are wrong to believe that bigger is better for the consumer. No one wins as competition is pushed aside by the larger monopolies put the little guys away. You let AT&T put itself back together and prices just keep going up as we the consumer are forced into Bundle packages that provide us with things we don't need or want. Internet service is now a public service and need to be regulated to benefit the public NOT the share holders alone. Monopolies fix wages and price to benefit the minority. Internet needs to be treated like water, gas, and electricity. Look at what big banks have done to the price and service cost just to provide a checking account to the consumer pays more now and gets less as banks make more and more. Enough is enough think about the public like you are supposed to do. Roger Maxfield
